

URIC ACID IN MEAT BRINGS RHEUMATISM

Says a little Salts in water may save you from dread attack.

Rheumatism is easier to avoid than to cure, states a well-known authority. We are advised to dress warmly; keep the feet dry; avoid exposure; eat less meat, but drink plenty of good water. Rheumatism is a direct result of eating too much meat and other rich foods that produce uric acid which is absorbed into the blood. It is the function of the kidneys to filter this acid from the blood and cast it out in the urine; the pores of the skin are also a means of freeing the blood of this impurity. In damp and chilly cold weather the skin pores are closed, thus forcing the kidneys to do double work; they become weak and sluggish and fail to eliminate the uric acid which keeps accumulating and circulating through the system, eventually settling in the joints and muscles, causing stiffness, soreness and painful rheumatism.

At the first twinge of rheumatism get from any pharmacy about four ounces of Jad Salts; put a tablespoonful in a glass of water and drink before breakfast each morning for a week. This is said to eliminate uric acid by stimulating the kidneys to normal action, thus ridding the blood of these impurities.

Jad Salts is inexpensive, harmless and is made from the acid of grapes and lemon juice, combined with lithia, and is used with excellent results by thousands of folks who are subject to rheumatism. Here you have a pleasant, effervescent lithia-water drink which helps overcome uric acid and is beneficial to your kidneys as well.—Advt.

6,000 DEALERS FIGHT TO BRING LIVE POULTRY DOWN TO 24C. RETAIL

Federation of Hebrew Butchers Determined to Hold Out Till Eve of Passover.

Determined to bring the wholesale price of live fowl down to 21 cents a pound, the Federation of Hebrew Retail Butchers tightened up its ranks to-day and prepared "to hold out to the very eve of the Passover," as one butcher put it. The defections of yesterday were made up by fresh recruits to-day.

There does not seem to be any abnormal scarcity of live fowl, though dealers generally admit it might be more plentiful. Commissioner Hartigan declares there is no reason for high prices excepting the reason of unusual consumption during the Passover holidays.

About two-thirds of the Jewish slaughter houses were reported closed this morning. Closures are expected at any moment between the contending retailers and wholesalers. There are 4,000 independent dealers fighting what they call the Poultry Trust. Practically all of the live poultry consumed by Jews in New York arrives at the West Washington Market and there was no scarcity in evidence there to-day. Baff Bros. bought large quantities at 28 cents and are selling at 28 cents.

The Retailers' Federation refuses to handle until the wholesale prices

are down to 21 and 22 cents, which would make the retail prices about 24 and 25 cents.

One hundred carloads of potatoes came in during the night. Most of them are in the yards of the New Haven and the New York Central railroads.

Eggs went up 2 cents to-day, but dealers predicted another big drop early next week. In spite of the large quantities of potatoes coming in the wholesale price is still high. Word came to-day from points in Maine that farmers were offering potatoes in any quantities at \$2 a barrel.

DISCUSS COLOMBIA TREATY.

Senator Lodge and Secretary Lansing Hold Conference.

WASHINGTON, March 23.—Senator Lodge, ranking Republican member of the Foreign Relations Committee, discussed the general international situation to-day with Secretary Lansing. The treaty with Colombia, by which the United States would pay \$25,000,000 for the partition of Panama, was discussed. Republican opposition in the last Senate special session was so strong that

the Administration withdrew the treaty before it came to a vote. It is expected its language, expressing regret for anything in connection with the Panama incident, will be modified and possibly the amount reduced to win Republican votes in the coming session.
